

7. PROJECT DOCUMENTATION

Advantages

- Centralized data
- Automated workflows
- Real-time reporting

Disadvantages

- Salesforce dependency
- Requires initial configuration effort

Conclusion

- The Courier Management System digitizes courier operations using Salesforce automation, with the stated goal of improving efficiency, accuracy and customer satisfaction.

Future Scope

- Mobile tracking app
- GPS integration
- SMS notifications
- AI-based delivery optimization

Appendix

- Source Code: Salesforce Configuration
- Dataset: Salesforce Objects
- GitHub / Demo: Salesforce Developer Org
